I am an aspiring Python Full Stack Developer with a Bachelor of Engineering (BE) in Computer Engineering. I have proficiency in web development and database management, with strong skills in Python, Django, JavaScript, and PostgreSQL. I have a proven track record of creating efficient, user-friendly applications.

PROFESSIONAL EXPERIENCE

- *Project: YouTubers*

  - Developed a comprehensive web solution employing HTML, CSS, JavaScript, and Django.
  - Facilitated seamless interaction between users and YouTubers, fostering collaborative events and ensuring secure payments.
  - Enhanced platform engagement through responsive design and adept management of admin roles.
    Tech Stack: HTML, CSS, JavaScript, Python, Django, PostgreSQL
    Link: GitHub

- *Project: Phonebook Management System*

  - Created a robust phonebook management system utilizing Python and PostgreSQL.
  - Enabled users to register, log in, and efficiently manage their contacts via a command-line interface.
    Tech Stack: Python, PostgreSQL
    Link: GitHub

EDUCATION

ARMIET, Shahapur (September 2020 - May 2024)
BE in Computer Engineering
Percentage: 70% (Aggregate)

Model College of Science & Commerce, Kalyan (August 2017 - March 2019**)**
HSC in Computer Science
Percentage: 69%
